

Subject Index

Volume 67

- Abdominal surgery, oligopeptides and, 124
- Aceruloplasminemia, 972S
- Acetylcholine, 764S, 772S
- Adhesion molecules, 129
- Adipose tissue. *See* Body fat
- Adiposity
 dietary fat as determinant of, 556S
 in women, 44
- Adolescents
 breakfast consumption trends in, 748S
 cardiovascular health in white, 624
 energy expenditure and physical activity in, 905
 female, zinc balance in, 948(Letter), 949(Letter)
 gluten-free diet and celiac disease in, 477
- African American population. *See also* Black population
 children
 fat distribution and insulin response in, 821
 predictors of overweight in, 602
 women, equations for estimating body fat in, 1155
- Age/aging, memory and glucose, 764S
- AIDS, antioxidants and, 143
- Amino acids. *See also specific amino acid*
 aromatic, requirements in adults, 640
 balance, 58
 kinetics, 124
 oxidation, 58
 requirements, 67
- Amsterdam Growth and Health Study, 846
- Animal models, dietary fat, genetic predisposition and obesity
 in, 505S
- Anorexia nervosa, fuel partitioning, fuel intake and, 513S
- Anthropometry, and body fat in pregnant women, 104
- Antioxidants
 in children with inflammatory bowel disease, 151(Letters)
 citrus fruit supplementation and, 240
 diet and smoking habits in French men, 231
 effect on hyperhomocysteinemia, 858
 fruit consumption and, 624
 HIV infection and, 7(Editorial), 143
- Apigenin, effect on hemostasis, 255
- Apolipoprotein, and atherogenic lipid fractions, 202
- Arachidonic acid, intestinal absorption of, 97
- Ascorbic acid
 and diet, smoking habits in French men, 231
 influence on iron absorption, 873
 reduction of lipoprotein oxidation and, 240
- Atherogenic lipid fractions, ionized magnesium and, 202
- Atherosclerosis
 ethanol and, 338
 olive oil and, 129
- Athletes, isoenergetic high- and low-fat diets in, 405
- Bacteremia, bone marrow transplantation and, 927
- Beck Depression Inventory, 1170
- B-group vitamins, effect on hyperhomocysteinemia, 858
- Bioavailability, of iron glycine, 664
- Bioenergetics, and skeletal muscle of malnourished adults, 39
- Biotin deficiency, and spleen lymphocytes in mice, 431
- Black population. *See also* African American population
 leptin and body composition of, 391
- Blood pressure, in obese postmenopausal women, 611
- Body composition
 and hereditary neuromuscular disease, 1162
 weight loss and, 492(Letter), 493(Letter)
- Body fat
 behavioral variables and, 846
 in children, energy expenditure and, 190(Editorial)
 dietary fat as determinant of, 556S
 dietary intake and, 25
 distribution, fatty acid metabolism and, 531S
 estimating, in African American and white women, 1155
 leptin and, 391
 in pregnant women, 104
- Body mass, kidney disease and loss of lean, 359
- Body mass index
 and adiposity in women, 44
 causation of obesity and, 563S
 in pediatric population, 602, 1111
- Body weight. *See also* Weight gain; Weight loss
 dietary fat and obesity, 546S
 low-fat diets and HDL concentrations, 573S
 and responses to dexfenfluramine in postmenopausal
 women, 611
- Bogalusa Heart Study, 757S
- Bone disease, total parenteral nutrition and, 186(Editorial)
- Bone mass, calcium and, 18
- Bone mineral density, 284
 after lactation, 685
 calcium homeostasis and, 693
 gluten-free diet in children/adolescents with celiac disease
 and, 477
 in obese women, 734

Book reviews
